

Continental High School iPad Agreement

2018-2019

Name of Student

Grade

Parent/Guardian Name

Phone Number

Address

This agreement is being entered into with the parent and student listed above, with the understanding that there will be a yearly expense (\$50.00) to the iPad initiative. This fee is added to the student's course fees for the school year. This agreement is to offset the cost of:

- Use of individual iPad
- iPad case
- Mobile device management
- District required apps
- Filtering
- Damages in excess of \$50

By signing the agreement, you are accepting the district's policy on the use of the iPad for educational purposes only. iPads are the property of the school and must be returned when requested, at the end of the school year, or when a student leaves the district for any reason. Those students in violation of the policies may have their iPads confiscated and/or face other disciplinary measures without reimbursement of the iPad fee. Failure to properly care for the iPad, charger, and cable may lead to further charges to the parent and student. Parents and students will reimburse the school for all repairs to iPads that are a result of deliberate misuse.

Students/parents are not permitted to put any apps on the iPads that are not pre-approved by the school and located within the Continental High School App Catalog. While on the school network, all content on the student iPad is filtered and supervised. Parents/guardians are accepting responsibility for supervision of content on the student's iPad when the student leaves the building.

Any student that does not return a signed form and the \$50.00 iPad premium by Friday, August 24, 2018 will be required to turn their iPad in at the computer lab before leaving the building until all requirements are satisfied.
