This is a safe, effective, one-way means of communication between students, parents, and his/her coach. Coaches can send messages/reminders to everyone subscribed on their list as a group, but messages cannot be sent back. All messages sent by the coaches through this service are archived. All coaches will begin using this service to send reminders and make announcements this school year. Phone numbers are kept secure—you cannot see a coach's phone number and they cannot see yours.

This service will **NOT** take the place of general athletic department alerts (such as game cancelations, etc). You still need to sign up for those alerts through the school website at www.continentalpirates.org.
